SUMMARY

Software Engineer with 1.10 years of experience in building scalable web applications and **REST APIs using PHP** (Slim Framework), **AngularJS**, and **SQL**. Strong foundation in **Data Structures & Algorithms**, **Object-Oriented Programming**, and **System Design**. Hands-on with database optimization, authentication, and performance tuning. Additionally, gained practical project experience in **Node.js**, **Express.js**, and **React.js** by developing full-stack applications. Experienced in working in fast-paced startup environments with high ownership.

SKILLS

Programming Languages: JavaScript (ES6), Familiar with Java, PHP, Python

Frameworks/Libraries/Tools: React.js, AngularJS, Node.js, Express.js, Postman, Git

Databases: MySQL, PostgreSQL, MongoDB

REST APIs: Proficient in developing and integrating REST APIs for dynamic applications

Problem Solving: Data Structures and Algorithms, System Design

EXPERIENCE

Software Developer

FinfoLab Technologies LLP, Bengaluru, India | July 2023 – April 2025

- Developed and maintained **REST APIs in PHP (Slim Framework)**, integrating stock broker APIs to enhance trading platform capabilities.
 - Enhanced trading features by integrating external APIs, achieving a **25% increase in system automation** and **10% faster trade execution**.
 - Built and optimized **full-stack web applications** using **JavaScript, PHP, AngularJS, and SQL**.
 - Optimized **SQL database queries**, improving **system reliability by 20%** and reducing **downtime by 15%**, ensuring secure and efficient data operations.
-

PROJECTS

Job Tracker App | MERN Stack | MUI

- Developed a full-stack Job Tracker application using **React.js (with MUI)**, **Node.js**, **Express.js**, and **MongoDB**.
- Implemented features to **add, search, and filter jobs by status** (Pending, Applied, Interview, Offer, Rejected).
- Designed a **dashboard with CRUD operations** to manage job applications efficiently.
- Optimized MongoDB queries and REST APIs for fast data retrieval.

Music Player App | MERN Stack

- Developed a full-stack music player using **React.js**, **Material UI**, **Node.js**, **Express.js**, and **MongoDB**.
- Implemented features to **upload, store, and play songs** with audio controls.
- Built REST APIs for handling song uploads, playback, and playlist management.

Notes App | MERN Stack

- Built a secure Notes App using **React.js**, **Node.js**, **Express.js**, and **MongoDB**.
 - Integrated **JWT authentication** and **RESTful APIs** for secure, scalable data handling.
-

CERTIFICATION

- DSA, Django Web Framework – Inlusto Private Limited
-

EDUCATION

- Bachelor of Engineering (Computer Science and Engineering), Saranathan College of Engineering, Trichy
