SUMMARY

Full-Stack Developer with 1.10 years of experience in building scalable, secure web applications using **PHP (Slim Framework), AngularJS, and SQL**. Proficient in developing **RESTful APIs**, integrating third-party services, and collaborating in **Agile environments**. Strong foundation in **data structures, algorithms, OOP, and performance optimization**. Actively enhancing full-stack capabilities through hands-on learning of modern technologies including **React.js, Node.js, Express.js, and FastAPI**. Passionate about writing clean, maintainable code and solving real-world problems through robust system design and debugging.

SKILLS

Programming Languages: JavaScript (ES6), Java, PHP, Python

Frameworks & Libraries: React.js, AngularJS, Node.js, Express.js

Databases: MySQL, PostgreSQL, MongoDB

REST APIs: Proficient in developing and integrating REST APIs for dynamic applications

Core Competencies: Strong problem-solving, logical thinking, and analytical skills

EXPERIENCE

Software Developer

Finfolab Technologies LLP, Bengaluru, India | July 2023 – April 2025

- Developed and maintained **REST APIs in PHP (Slim Framework)**, integrating stock broker APIs to enhance trading platform capabilities.
 - Integrated external stock broker APIs to enhance trading features, resulting in a **25% increase in system automation** and **10% faster trade execution**.
 - Proficient in **JavaScript, PHP, AngularJS, and SQL**, with hands-on experience in building, testing, and optimizing **Full Stack web Applications**.
 - Optimized SQL databases, improving system reliability by **20% and reducing downtime by 15%**, ensuring secure and efficient data operations.
-

PROJECTS

Applied Behaviour using Computer vision

- Developed using **Python Flask & YOLOv5** for object detection

Music Player App | MERN STACK

- Developed using **React, MUI, Node.js, Express.js and MongoDB**

Random Quote Generator

- Developed using **React.JS**

Notes App | MERN STACK

- Built a full-stack Notes App using **React.js, Node.js, Express.js, and MongoDB** with **JWT authentication** and **RESTful APIs**
-

CERTIFICATION

- **DSA, Django Web Framework – Inlusto Private Limited**
-

EDUCATION

- **Bachelor of Engineering (Computer Science and Engineering), Saranathan College of Engineering, Trichy**
